

# MEET OKLAHOMA.

His name is Darren Hugley. Married, 27 years. Two kids: a 21-year old daughter and a 17-year old son. Passionate about flying his ultralight aircraft and riding his motorcycle. Used to motocross but may be "too old for that, now." Graduated from Adair High School in 1980. Began as member of a multi-person Brush Crew for an electric utility. Then came several promotions: Lineman Apprentice, Journeyman Lineman and Senior Lineman. Now, the title is Line Maintenance Supervisor in charge of running the same crew that he started on three decades ago.

Darren is just one part of Oklahoma's most treasured resource: our people. Individuals that mirror our native strengths of tenacity, integrity, and ingenuity.

Like other economic development organizations in Oklahoma, we are tasked with the complex and difficult job of recruiting new industries to our state. But, it becomes a whole lot easier when they meet someone like Darren.
